PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate with hands-on experience in frontend-focused web development. Skilled in building and improving responsive UI components using React.js, implementing form handling and validations, and supporting backend integration and API testing. Strong collaborator with experience in documentation, testing, and cross-team coordination.

PROFESSIONAL EXPERIENCE

Frontend Developer Project Trainee – Fidelis Ampere

- Developed and improved frontend UI components using React.js following reusable component-based architecture.
- Implemented form handling and basic client-side validation for login and enquiry pages.
- Assisted in backend integration using Node.js and MongoDB for authentication-related data.
- Supported API integration, testing, and debugging under senior developer supervision.
- Performed manual testing, UI reviews, and issue reporting to ensure application quality.
- Assisted with documentation, requirement notes, and internal team coordination.
- Supported teams with basic vendor coordination and information follow-ups when required.

EDUCATION

B.Tech in Computer Science & Engineering (2020 – 2024)
IIMT College of Engineering, Greater Noida (AKTU) | CGPA: 7.42
Intermediate (CBSE) – 86.6% | RPM Academy (2019 – 2020)
